MEMORANDUM.

In the "Financial Statement" of the Government of India, which is annually presented to Parliament, all receipts are shown on the Revenue side and all payments on the Expenditure side, with the exception that the working expenses of railways and the share of surplus profits and net earnings paid to various railway companies are treated, not as expenditure, but as deductions from revenue.

In this Return of "Net Income and Expenditure" certain other charges of revenue-earning departments are treated as deductions from revenue, and the receipts of spending departments are treated as deductions from expenditure.

The method by which the figures of Net Revenue and Expenditure are compiled from the gross figures may be seen from the following example :—

	£
Taking the figures for the year 1910–11, the total Revenue (after deduction of the railway charges mentioned above) was - - - - - - - - -	80,682,473
From this total, however, must be excluded the receipts under the heads of Interest, Military Services, Civil Departments, Civil Works and "Miscellaneous (excluding 'Exchange')," which are treated in this Return as deductions from expenditure—*see below*—amounting to -	4,799,231
Subtracting this sum, there remain the gross receipts from Land Revenue, Taxation, Opium, Forest, Tributes, Railways (after the deductions referred to above), Irrigation, Post Office, Telegraphs, Mint and Exchange, amounting to - - - - - - - - -	75,883,242
Against this sum it is necessary to set off the charges under the heads just mentioned, including Refunds, Assignments, Interest charged against Railways and Irrigation Works, and Working Expenses, &c. The total of these was - - - - - - - -	20,735,958
The Balance is shown in the present Return as the total Net Revenue - - - - - - - -	55,147,284

	£
The total Expenditure charged against Revenue as shown in the Financial Statement was - - - - -	76,746,186
This amount includes charges of revenue-earning departments, which are brought to account on the Revenue side of this Return, aggregating (as mentioned above) -	20,735,958
Deducting this sum, there remains the gross expenditure on Interest, Military and Civil Services, Collection of Revenue, Famine Relief and Insurance, and Provincial Adjustments amounting to - - - - -	56,010,228
Against this sum it is necessary to set off the interest receipts and those of the spending departments, amounting (as mentioned above) to - - - -	4,799,231
The Balance is shown in the present Return as the total Net Expenditure - - - - - - - -	51,210,997

At the close of the tables of Expenditure on pages 5, 7, 9, and 11 will be found a statement of the adjustments made with the Provincial Governments. Under arrangements made by the Government of India those Governments are allowed a certain proportion of the revenue which they collect, and are required to meet a certain proportion of the expenditure which they supervise. In a year in which the Provincial Governments spend more than the revenue assigned to them the excess is debited to their balances and deducted from the total actual expenditure in order to arrive at the amount which is to be charged against the revenue of the year before the final surplus or deficit of the year can be exhibited; in a year in which

their expenditure falls short of their full grants the difference is credited to the Provincial balances, and must therefore be added to the total actual expenditure in order to arrive at the amount to be charged against the revenue of the year.

Throughout the Return rupees have been converted into sterling at the rate of 15 rupees to the pound (= 16 pence to the rupee). The addition or deduction to be made on account of the fact that the remittances from India to England are not effected at exactly this rate is shown under the head of Exchange. Since 1898 the annual charge or receipt has become comparatively insignificant.

India Office,

March 1912.
